

# Lights & Colors

## Ages 2 years—3 years

**Objective:** The child will learn their colors after seeing & repeating them.

**Materials needed:**

Christmas Lights Colors (printable)

Optional: Paint & Q-tips (variety of colors of paint)

**Procedures**

1. Sit your child at a small table for this activity.
2. You are going to show the printable sheet to your child, point to each color one at a time while saying the colors name out loud. Ask child to repeat that colors name after you. (I.e. "Can you say blue? Point to the color blue with me.")
3. Then point to the color word and say the name of the color again. Point to each letter spelling out the color word. Ask child to repeat the color.
4. Do this same thing repeating teaching steps in #2 and 3 until all colors have been taught.
5. For extra fun with colors—let your child paint the same colors on top of the lights (printable sheet) using the Q-tips.

# Lights & Colors

## Ages 2 years—3 years

### **Milestones to meet:**

The child begins recognizing their colors. The child can paint on top of the matching color using Q-tips. The child can repeat a colors name after hearing it.

### **Evaluation:**

Did this lesson work for your child? Why or why not?
